SC PERFORMANCE GOAL

2010 Goal:

By 2010, SC's student achievement will be ranked in the top half of the states nationally. To achieve this goal, we must become one of the fastest improving systems in the country.

2020 Vision:

By 2020 all students will graduate with the knowledge and skills necessary to compete successfully in the global economy, participate in a democratic society and contribute positively as members of families and communities.

REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

The status of a premier school can only be accomplished from the involvement of our parents in each child's education. Accountability is the key to keeping our students on track. Therefore, we are working hard to ensure that all students are well prepared to master the HSAP (High School Assessment Program) and EOCT (End of Course Test). As the 2009-2010 school year progresses, we have had to face several obstacles as a school. Because of furlough days and insufficient funding, we had to suspend programs. This was detrimental for student achievement; however, our staff and students rose to the occasion to maintain excellence in the classroom.

Ridgeland High School offers academic programs in basic and advanced courses. College preparatory classes in social studies, science, math, technology, and english are available to our students. Over 25% of our faculty and staff hold advanced degrees. Through collaborative teamwork, our teachers have made a total commitment to our students by offering to volunteer one hour per week after school for tutorials without compensation.

The results from the South Carolina High School Assessment Program (HSAP) for the past three years have shown increments of growth, but we fell short of our goals of expected progress. Ridgeland High School's 2009 passage rate for first attempt tenth graders dropped to 54.0%. Our EOCT results were positive ones. In all subject areas, test results increased across the board by 5%. These results are truly commendable. Recognition goes to our students, faculty, and staff who pooled their strategies and foresaw the implementation of other resources for student achievement.

Teacher qualifications, training, and operational procedures were assessed by the administration. A need exists to retrain teachers in curriculum, discipline, and technology integration for the delivery of state standards. To assist in this matter, the leadership team meets bi-weekly to review data, assess the needs and implementation of curriculum, and develop monitoring strategies to improve student achievement.

The faculty and staff continue to collect data for improvement of student achievement. Common Assessments and Benchmark Testing are used to identify student weaknesses and strengths on standardized tests. Other programs have been implemented to redirect our students to close the achievement gap. Moreover, the technology of computer based programs is being used for strategic planning.

The learning environment at Ridgeland High School is extremely competitive. Students are encouraged to actively engage in their own educational experience. Staff members provide a warm, nurturing atmosphere. Many teachers and administrators come early and stay late assisting with student projects and events. Teachers actively participate in and sponsor extracurricular activities and events. We developed, this year, a pilot of the 9th grade academy to help defray the dropout rate and 9th grade repeater rate. We are in the process of developing a summer transitional program for those 8th graders moving to 9th grade with the focus on math and english.
